

WORLD FEDERATION KENPO STYLES UNITED

Welcome of the WFKSU

Presentation

The WFKSU – World Federation Kenpo Styles United, was born with the idea of gathering under a single abbreviation first of all the Kenpo's styles of the last fifty years, without any distinction, both of Chinese and Japanese origins, both those of the Okinawa's Island and those of Korean origins, both those coming from the west and the east, the traditional and ancient ones and the new ones coming from the changes that have been introduced in the ancient styles.

Many styles derive from both Chinese and Japanese styles or from a martial arts' mix, others derive from the great work of excellent masters who have created their own personal style with particular influences and characteristics, only after a long period of hard studies and practice.

It is important to underline that all styles are equally valid, there is no better or worse style, when they follow the aims and the philosophy of Martial Arts and Budo, and when they are useful in order to reach a superior objective. So there is no difference among the different styles and martial arts, because everyone of us has always something to learn.

The WFKSU is a free and democratic federation, it is opened to everybody, masters and martial arts'athletes; it can be considered as a multi-style federation that allows adhesions to members of other disciplines and styles.

The aim

The WFKSU's aim is that of gathering different styles and methods without interfering with the management of the single school, or style, it doesn't want to change your own personal method or style, or interfering with your school programs; people who adhere have to continue to practice their style and method for their personal growth.

The WFKSU wants to create a wider and wider network of exchange of ideas and themes, through several activities, for example meetings with different realities, in order to allow master to give demonstrations or lessons to the athlete freely.

When you adhere to the WFKSU, you become member of a Martial Arts' Federation that is present all over the world, the Federation will work in order to promote and practice each particular style.

As a member, you can receive news about future events, seminars, exchange programs, meetings, newsletter, you can have the possibility to be known at an International level, in fact you can be present on the website with a short biography, a jpg. photo and your certificate of rank, moreover you can add a link of your personal website or that of the school.

The certificate of adhesion is a document that presents the member as a relevant figure in a particular style of WFKSU, moreover the enrolment certificate will be sent freely to the address that

you have indicated in digital format. For people who want to receive it in papery format, they have to pay only the sending cost.

It must be clear that the WFKSU doesn't issue certificate of rank to the new members, but it considers as true the rank declared by the member. If the rank declared is false, the adhesion will be revoked.

It is necessary to remember that the adhesion is totally free, as well as the certificate of enrolment that we send to all the members.

We accept with great pleasure members that represent their own country, and we give them not only the certificate of adhesion, but also that of members representative of their own country for the WFKSU.

Moreover, if a country has not yet a general member, you can propose yourself, in this case the candidate has to present at WFKSU at least five full representatives.

Rule

It must be remembered once again that the adhesion to the WFKSU is totally free, as well as the position of representative of a country. What makes us united is the brotherhood and the passion for the martial arts in general, without differences of language, race, skin colour or sexual gender.

The representatives that are named by the WFKSU can't issue any type of certificate, neither of adhesion, neither of representation or rank, but they have to send the applications for the completions of procedure to the seat. Then the seat will prepare the certificates and will send them to the representatives, who finally issue them to the applicants always following the rule of free service.

Control body

In the WFKSU there is an important control body, composed of masters of different disciplines, the "Grand Masters Council" is an important body for the evaluation and the control of the issuing of certificates of rank, the acceptance of styles and systems and for the control of the correctness of promotions.

The WFKSU issues certificates of rank only to a style's founder in the occasion of the general meeting that takes place every year at the presence of the person who has this right, after a careful evaluation made by the Grand Masters council. The evaluation can also be made previously through a demonstrative video that satisfy the requirements of the proposed rank

Under a proposal of the Grand Masters Council, the WFKSU issues certificates for merits to the masters that distinguish themselves for the promotion of brotherhood in all martial arts and styles.
